***** CERTIFICATE OF CONFORMANCE *****

National Instruments (NI) hereby certifies that the NI part numbers and quantity of this shipment are in accord with the Customer's Purchase Order. NI further certifies that products that are part of an initial purchase consist of new material. The NI products have been inspected and tested and conform to quality and performance standards as documented in the National Instruments Quality Management System (QMS), in conformance with the ISO 9001:2015 standard.

National Instruments further certifies that the environment in which the products were tested is maintained within the operating specifications of the instrument and the standards. If any product requires calibration, the instruments used to perform the calibration are traceable to the National Institute of Standards and Technology (NIST) and/or other National Measurements Institutes (NMI's) that are signatories of the International Committee of Weights and Measures (CIPM) Mutual Recognition Arrangement (MRA). For questions or comments, please contact National Instruments Technical Support.

Some of these items are controlled by the U.S. Government and authorized for export only to the country of ultimate destination for use by the ultimate consignee or end-user(s) herein identified. This includes items that are subject to National Security controls as indicated by a '00' in the third and fourth position of the ECCN, or those that are US origin as indicated by 'US' in the country of origin column. Such items may not be resold, transferred, or otherwise disposed of, to any other country or to any person other than the authorized ultimate consignee or end-user(s), either in their original form or after being incorporated into other items, without first obtaining approval from the U.S. government or as otherwise authorized by U.S. law and regulations.

The commodities listed on this invoice are not to be resold or transferred without direct approval from National Instruments' Corporate Office, Austin, Texas, USA. The use or employment of these commodities in any activities related to nuclear, chemical or biological weapons or maritime nuclear propulsion is strictly prohibited without an export license from the U.S. government.

Other items are not subject to the U.S. Export Administration Regulations (EAR). However, you may be subject to the economic sanctions regulations administered by the U.S. Treasury Department's Office of Foreign Assets Control. In addition, some items may also be subject to additional license requirements of other countries' regulations such as the European Union Council Regulations No. 428/2009, the Malaysia Strategic Trade Act, and others. Additionally, some items may also require export licensing before being returned to NI. The issuance of a Return Material Authorization by NI does not constitute export authorization. Please contact NI's Global Trade Compliance at trade.compliance@ni.com.

NI shipped these products based on its understanding and condition that (i) they are not for the use in the production or development of any item produced, purchased, or ordered by any entity with a footnote 1 designation in the license requirement column of Supplement No. 4 to Part 744, U.S. Export Administration Regulations and (ii) such a company is not a party to the transaction. If our understanding is incorrect, please contact NI's Global Trade Compliance at trade.compliance@ni.com immediately to begin a process of returning these products to NI because a specific authorization may be required from the U.S. Commerce Department before the transaction may proceed further.
